EDUCATION

St Joseph's University

Master of Science in Computer Science

Bangalore, Karnataka

Aug. 2022 – June 2024

St Joseph's College (Autonomous)

Bachelor of Science in Mathematics, Electronics, and Computer Science

Bangalore, Karnataka

Aug. 2019 – Aug. 2022

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, MySQL

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS, Vite, Bootstrap

Tools & Platforms: Git, PostgreSQL, VS Code

Concepts: REST APIs, Agile Methodology, Responsive Design, JWT Authentication, Performance Optimization

EXPERIENCE

KreupAI Technologies LLC

Software Engineer

Dubai, UAE

Aug. 2025 – Feb. 2026

- Developed and maintained full-stack web applications using React, Next.js, and Node.js.
- Built scalable RESTful APIs and integrated backend services to improve application performance and reliability.
- Collaborated with cross-functional teams in Agile development workflows to deliver production-ready features.
- Improved code maintainability through debugging, testing, and reusable component development.

PROJECTS

Roomify AI | *Next.js, TypeScript, Tailwind CSS, AI Integration*

[Link](#)

- Developed an AI-powered room transformation application that generates redesigned interior spaces from uploaded room images.
- Integrated AI image generation workflows to provide users with multiple room style variations and enhanced visual outputs.
- Built a responsive and modern UI using Next.js and Tailwind CSS for seamless cross-device usability.
- Implemented optimized image upload and rendering workflows to improve user experience and application performance.

AI Content Generator | *Next.js, TypeScript, PostgreSQL, Clerk, Drizzle ORM*

[Link](#)

- Developed an AI-powered content generation platform using Gemini API and dynamic content templates.
- Integrated PostgreSQL with Drizzle ORM to efficiently manage generated content and user history.
- Implemented authentication and protected user workflows using Clerk authentication services.
- Built content history management features with copy and delete functionality for improved usability.

RESEARCH

Comparative Analysis of User-User Collaborative Filtering Approaches

June 2023 – Nov. 2023

- Conducted research on collaborative filtering approaches for music recommendation systems using five recommendation models.
- Compared Pearson correlation, cosine similarity, adjusted cosine similarity, slope one, and SVD techniques.
- Evaluated model performance using precision, recall, F1-score, and RMSE metrics for recommendation accuracy analysis.

CERTIFICATIONS

Web Development Bootcamp: Dr. Angela Yu

The Agile Certified Practitioner Training Program: Sorin Dumitrascu

AWS Academy Graduate - AWS Academy Cloud Foundations: AWS Academy
